## Benefits of Buying Natural Gas & Electric from a Marketer (ESCO)

### Elimination of Gross Receipts Tax, M.T.A. Surcharges & Merchant Function Charges

- Utilities must collect GRT and MTA fees
- Marketers (ESCO's) do not have to collect GRT and MTA fees. When you view your CE invoice this is under "your supply charges", this is an incentive CE offers when you go to an ESCO.
- Savings vary by region and account type.

### Marketers offer Fixed Rate and NYMEX Plus Pricing Plans

- Utilities **only** offer monthly variable rates, subject to current market conditions
- Marketers also offer monthly variable rates in addition to **fixed** and **index**-based plans to help protect and maintain your budget.

### Benefits of Buying from ESCO's

- The ESCO's fixed price is "all inclusive", (except for sales tax or when stated).
- ESCO's offers a variety of natural gas pricing programs including fixed price, floating index price, and "NYMEX" + basis pricing.
- ESCO's offer single bill through the utility easy one check payment (the Utility will handle invoicing)

### Why Slattery Energy?

Slattery Energy utilizes its 35 years of NY energy experience to benefit clients through our competitive bid process to secure the best prices along with customer-friendly terms and conditions. Slattery is the chosen energy consultant for the CHIP organization of NY multifamily building owners.
